

# Notes de recherche sur le hacking

## Outils utilisés

- Tails <https://tails.boum.org/about/index.fr.html>

## Moteurs de recherches utilisées pour requêtes en ligne

- Open science, Open Acces : <https://sci-hub.tw>
- [yacyNet](#)
- Tor network
- Searx
  - <https://search.fuckoffgoogle.net>
  - <https://search.disroot.org>
- [censys.io](#), What servers and devices are exposed on my network?, with ggogle analtics et ggogle fonts inside
- [shodan.io](#), for Internet-connected devices. With ggle analytics inside
- [Viz greynoise](#), ggle manager inside
- [Zoomeye](#); baidu inside
- [fofa](#), baidu inside
- [Onyphe](#), cyber threat intelligence data collected by crawling various sources available on the Internet or by listening to Internet background noise
- [App Binaryedge](#), scan. With google maps & manager inside, Jsnetwork & jsstripe.
- [Hunter](#), email addresses. 10 trackers inside - too much
- [Wigle](#). a Billion WiFi Networks Geolocated
- [Ghost Porject](#), full email address or username. Ajax cloudflare, googlemanager,twitter trackers inside

## Hacking et prendre soin

- Neurotic Neurons

An interactive animation about neurons & anxiety.

introduce here was exposure therapy, which is part of Cognitive Behavioral Therapy. CBT is basically being mindful of your crappy neural connections, and gaining skills to retrain those connections. The article that most helped me understand CBT — and had a huge impact on my personal life — is this article, CBT is for Hackers (<http://cbtsanfrancisco.com/cbt-is-for-hackers>)

<https://ncase.me/neurons>

- Hacking with care : <https://hackingwithcare.in/wiki/doku.php/start>

## Femmes Pirates

- Note n°1 : [Femmes pirates avant le XXle siècle](#)

## Retro

- telehack : <http://telehack.com>

Telehack is a text-based simulation of an early version of the Internet.

Telehack is a virtual museum that allows one to see what the Internet was like in the 1980s, when young hackers were browsing through different bulletin board systems and shell accounts.

- Note n°1 : [Communication distrubée](#)

## Droits d'auteur

- Note de discusion n°1 : [\(Bio\)art urbain et droits d'auteurs](#): avec un docteur en droit

## Exposing The Invisible

- Note n°1 : [sur la traduction du préambule du kit](#)

## Com Telco

- Note 1 : [IMSI](#)
